

Flagship Program- College of Science & Technology

International Master Degree Program in Intelligent Semiconductor and Green Technology

Launching in 2026 !

Three Concentration of Studies

Advanced Semiconductor
Technology

Artificial Intelligence
Applications

Green & Sustainable
Technologies

Career Opportunities

 Aligned with Taiwan's industry needs (IC design, AI, green technology)

 Government policies support international students staying to work

 Internships + co-teaching with industry experts

Scholarship
Provided

- ✓ Stipend
- ✓ Free Accommodation and Tuition Waiver

International Master Degree Program in Intelligent Semiconductor and Green Technology (Instructed in English)

College of Science & Technology, National Chi Nan University

Scholarships and Benefits (up to four semesters)

- Exemption from tuition fees
- Free on-campus dormitory (Quadrangle Dorm)
- Monthly scholarship (up to NTD 6,000)

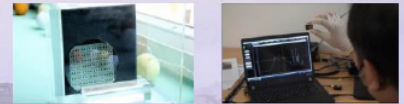

Application Period for 2026 Fall Semester Dec. 2025 – Apr. 2026

Student Eligibility

- Bachelor's degree holder
- English proficiency: CEFR B1+ (or equivalent)

Three Concentrations of Studies

- Advanced Semiconductor Technology and Applications
- Artificial Intelligence and Applications
- Green Technology and Applications
