Exhibition Area

Invention Competition Area

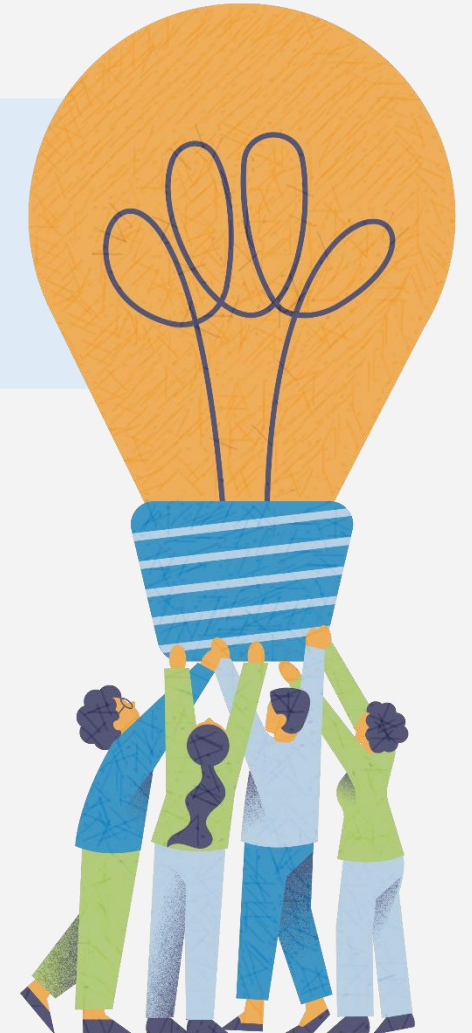

- Domestic Inventions
- Overseas Inventions
- Educational Institution Inventions
- TAIWAN PATENT GO

Theme Pavilion

- Innovation Economy
- Future Tech
- Sustainability

Public Service

- Patent Merchandise
- Peripheral Services

Invention Competition Area

Expected to have **more than 500 inventions**, you can discover the groundbreaking innovations from the most brilliant minds in Taiwan and worldwide to **compete for the platinum award** in the invention competition.

Innovation Economy Pavilion

Shaping the Future Through Innovation

The Innovation Economy Pavilion spotlights Taiwan's strengths in **semiconductors and AI**, presenting cutting-edge innovations and industrial applications. It fosters global collaboration and supports smart transformation and resilient supply chain development.

By uniting tech leaders and researchers, the pavilion showcases Taiwan's drive for innovation. It serves as a hub where emerging technologies meet industry, offering insights into Taiwan's future-ready industrial landscape.

Next-Generation Communication
Artificial Intelligence Application Area

Future Tech Pavilion

Taiwan x Global: Bridging Research and Industry, Tech in Motion

Future Tech Pavilion (FUTEX) focuses on breakthrough technologies projected **over the next 3 to 10 years.**

Under the theme “Taiwan × Global: Bridging Research and Industry, Tech in Motion,” FUTEX showcases Taiwan’s R&D strengths and global collaboration. This year’s focus includes **Smart Robotics, Quantum Technology, and AI Applications**, presenting cutting-edge technologies in interactive and accessible ways, bridging innovation and industry to drive global impact.

Popular Exhibits

Green & Net-zero

Biotech
New drugs & Medical devices
Humanity Technology

Sustainability Pavilion

The Sustainability Pavilion, themed "SMART • RESILIENT • SUSTAINABLE • HEALTHY," showcases 89 innovations from six ministries across three zones: Smart Innovation, Resilience Empowerment, and Circular Sustainability. It promotes a secure, connected, and sustainable lifestyle through advances in **smart technology, food and resource security, national defense, and green industries.**

Highlight Events

Highlight Events

Silicon Brain | Semi x AI

Date Oct. 17 (Fri) 10:00-12:30 **Venue** Main Stage

Agenda

Focusing on the theme of “AI Cross-Domain Innovation, Driving the Smart Future”, this event brings together leaders from industry, government, academia, and research institutions, along with outstanding scientific talent, to explore the integration and innovation of semiconductor and AI technologies. Through forum discussions and knowledge exchange, the event aims to deepen understanding of emerging technologies, unlock their potential, and foster the continuous development of industries and technical talent.

10:00-10:30	Opening Remarks <i>Dr. Nicky Lu</i> - Chairman, Etron Technology <i>Dr. Chyou-Huey Chiou</i> - Director General, Industrial Development Administration, MOEA (<i>pending</i>) <i>Dr. Chih-I Wu</i> - President, Taiwan Semiconductor Industry Association (TSIA) <i>Mr. Terry Tsao</i> - Global Chief Marketing Officer & President , SEMI Taiwan <i>Ms. Jo-Ann Su</i> - Vice President, SEMI Taiwan
10:30-11:00	Vision and Emerging Issues in Semiconductor Technology Moderator: <i>Shih-Chieh Chang</i> - Chairman, Taiwan Industry-Academia Research Alliance (TIARA) <i>Dr. Yung-Lung Lin</i> - Chairman & CEO, NEUCHIPS Corporation
11:00-11:10	Networking Break
11:10-12:30	Focus Topic: Silicon Brain Semiconductor x AI Moderator: <i>Dr. Hsiao-Hsien Yu</i> - Chief AI Strategy Officer, Industrial Technology Research Institute (ITRI) Panel: Three Recipients of the 2025 SEMI 20 Under 40 Award

Highlight Events

2025 TIE International Technology Matchmaking Event

Date Oct. 17 (Fri) 13:30~16:15

Venue Taipei World Trade Center Hall 1 2F Conference Room

Agenda

Connect with senior executives from top enterprises, venture capital firms, patent strategy companies, and accelerators across the USA, Canada, Japan, Singapore, Malaysia, and Thailand as they explore cutting-edge innovations from Taiwan. This is a rare chance to pitch directly to global decision-makers through curated one-on-one matchmaking — maximizing your opportunity to secure global collaboration and elevate your business on the world stage.

13:40-14:20

[Keynote] Emerging Trends in Intangible Asset Strategy and Technology Commercialization

Carlo Geremia - ADVANT Nctm (*pending*)

MingChun Chiu - Industrial Technology Research Institute (*pending*)

14:20-15:30

[Pitch Show]

10 TIE Tech Companies

15:30-16:15

[1-on-1 Matchmaking]

Global Industry/VC/IP elites & 10 TIE Tech Companies & Interested Industry Participants

Highlight Events

▶▶ Smart Robotics: Taiwan's Strategic Future Track

Date Oct. 16 (Thur) 15:30-17:00

Venue Future Tech Pavilion Stage

▶▶ Taiwan Institute of Sports Science – Emerging Sports Technology Forum

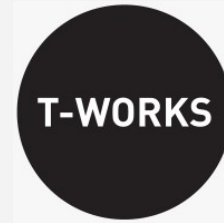

Date Oct. 17 (Fri) 13:30-15:00

Venue Future Tech Pavilion Stage

▶▶ International Forum on Next Generation Communication Applications and Cybersecurity Collaboration

Date Oct. 17 (Fri) 09:30-16:30
