

# **2024 Taiwan Long-Term Care Policy and Industry Visiting and Business Exploration Program for Overseas Compatriot Entrepreneurs Information & Application Bulletin**

## **I. Purpose and Objectives:**

Taiwan enjoys a rich, diverse and professional long-term care industry with many different models and systems providing care services. Coupled with a strong foundation in information and communication technology (ICT), technology, and digital development, these factors greatly benefit the application and development of the long-term care industry. In order to enhance the understanding of our long-term care policies among overseas compatriots, strengthen connection between global Taiwanese businesspeople and domestic competent authorities and industries, boost competitiveness of overseas Taiwanese enterprises, facilitate complementary integration of advantageous industries and resources at home and abroad, and support the international market expansion of Taiwan's advanced technology products, the OCAC invites overseas Taiwanese businesspeople who are interested in developing or are currently engaged in the long-term care industry to return to Taiwan for visits and exchanges and thus create business opportunities for the industry.
