Bachelor's Program in Interdisciplinary Studies (BPIS)

Fu Jen Global Academy

BPIS

Fu Jen Catholic University is the top private university in Taiwan. The Bachelor's Program in Interdisciplinary Studies (BPIS) allows students to explore multiple areas of study such as business management, global studies, and sustainability. Throughout this dynamic program, students can tailor their coursework to fit their academic and career goals with real-world learning opportunities. To explore various areas of interest in depth, students will engage in project-based learning through faculty-supervised projects and work closely with supervisory committee members from various academic units. Students will possess both theoretical knowledge and practical skills that will help them solve global challenges.

Why BPIS?

BPIS equips students with the skills and knowledge needed to address global challenges by fostering critical thinking, adaptability, creativity, and a holistic approach to problem-solving. Graduates of BPIS are well-equipped to enter various industries and pursue diverse career paths.

While gaining a practical understanding of business management, students learn to be global citizens, leaders, innovators, and entrepreneurs.

Program Features

International Experience

Fostering a global mindset is essential among students. With a diverse cohort of students spanning over 16 countries, students can broaden their cross-functional knowledge, master global leadership and intercultural communication skills in a collaborative learning environment.

Industry-Academia Collaboration

To prepare students toward a successful career, students will benefit from experiential learning opportunities like engaging in industry-based projects and international cultural exchanges.
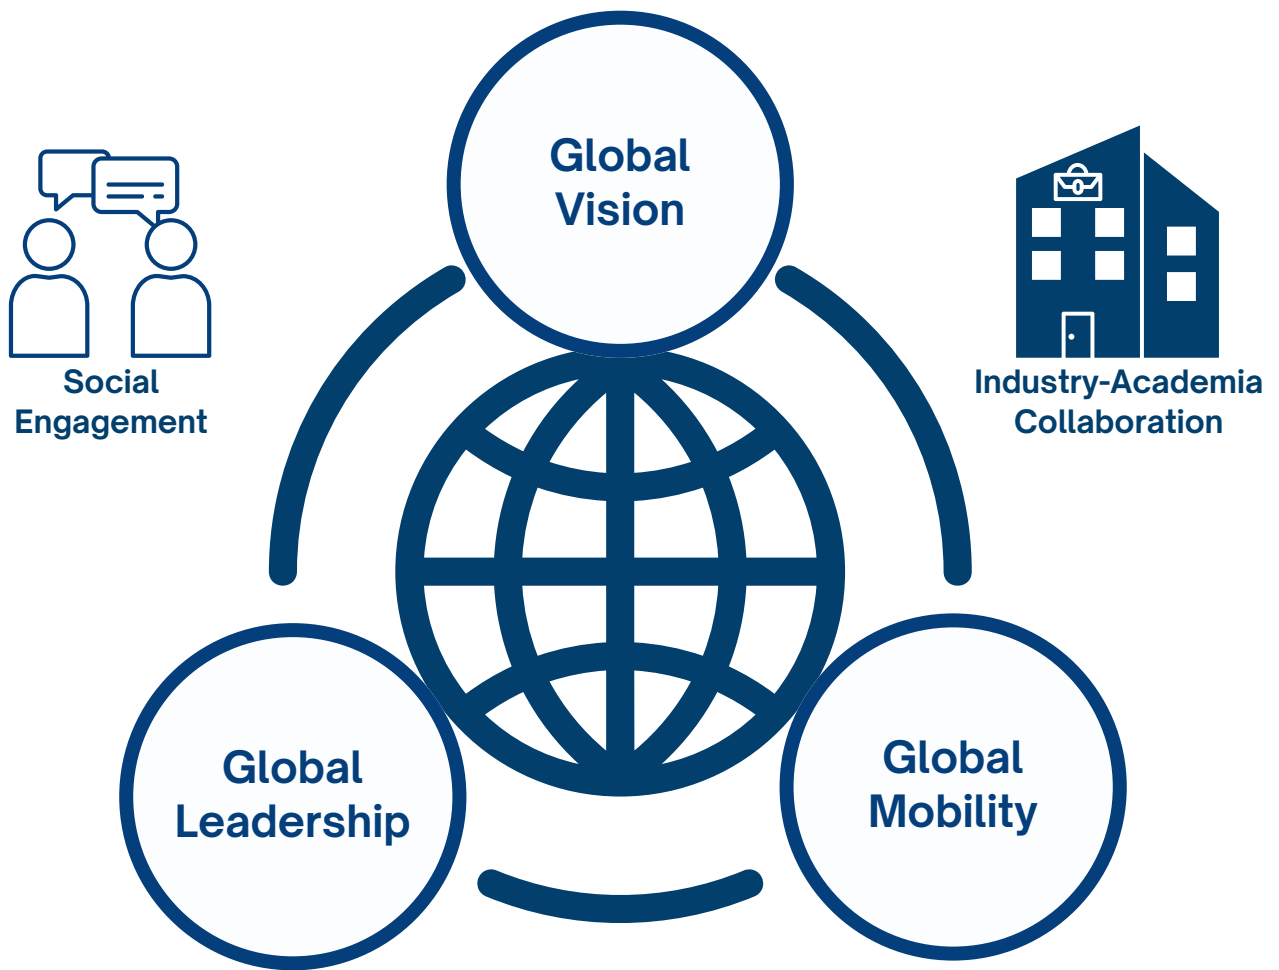

Innovation and Creativity

Through the lens of innovation and creativity, students can approach challenges from multiple angles to generate more comprehensive solutions to address global issues such as climate change.
