50+ Associations

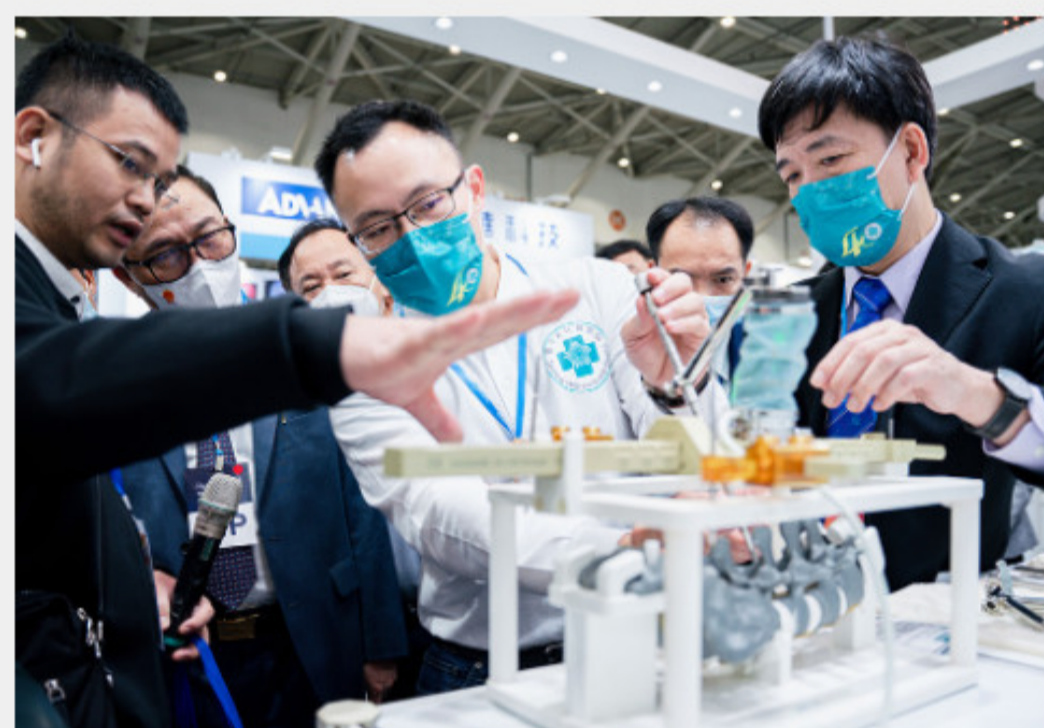

500 Hospitals Worldwide

◆ Topics-in-Focus

Smart Hospital

You will meet tech giants, such as [Advantech](#), [Qisda\(BenQ\)](#) and [Quanta](#), showcasing their latest smart hospital solutions, healthcare AI platforms, telemedicine, 5G applications and medical cloud solutions. Don't miss this opportunity to witness trending medtech advancements.

Digital Health

Explore platforms powered by digital technologies, medical software, wireless and mobile gadgets, AIoT-connected equipment and systems that expedite hospital digital transformation presented by [Asus](#), [Acer](#), [Intel](#), [Inventec](#), [Microsoft](#), [Oracle](#), [Wistron](#) and more.

Medical Devices

Find the best and AI-ready medical panels, pioneering portable ultrasound devices, surgical robots and instruments and new-generation radiology technology, as well as meeting sustainable medical device developers and innovations [AUO](#), [CHC](#), [Delta](#), [HIWIN](#), [Innolux\(InnoCare\)](#), [Onyx](#), [Roche](#) and [Varian](#).

Precision Diagnostics

A robust supply chain encompassing whole genome sequencing, pathogenomics, NIPS, cancer genomics and bioinformatics, automated diagnosis systems, biomaterials and high-quality development and manufacturing services.

Regenerative Medicine

Explore novel therapies including exosome therapy and cell therapy for cancer treatment, stroke, bone healing and anti-aging remedies, whilst building clinical partnerships with leading medical centres, research institutes and biotech companies.
